

## **Jeff Kivett, P.E.**

### *Operations, Engineering & Construction Division Director*

Mr. Kivett manages around-the-clock water control operations and monitoring of the regional water management system and coordination with local entities. He also oversees the inspection and refurbishment of existing facilities, along with the design and construction of new projects and infrastructure.

#### **Background**

Jeff Kivett, P.E., previously served as the District's Bureau Chief for Engineering and Construction. He was responsible for oversight of the District's restoration and capital projects, ranging from reservoirs and stormwater treatment areas to flood control system improvements.

Before joining the District in 2007, Mr. Kivett worked in the private sector and also for the City of Los Angeles. In 2009-2010, he was recognized by the American Society of Civil Engineers as Florida Government Engineer of the Year.

Mr. Kivett holds a Bachelor of Science in Civil Engineering from Colorado State University and is a professional engineer registered in the state of Florida.
